Who Am I?

Julien PEETERS / julien.peeters@monkeycodex.io

Open-source, privacy & security enthusiast for years

Discrete passion for Software Defined Radio (SDR) & applied security

Embedded software architect & hardware engineer 10+ years

The dragon to defeat!

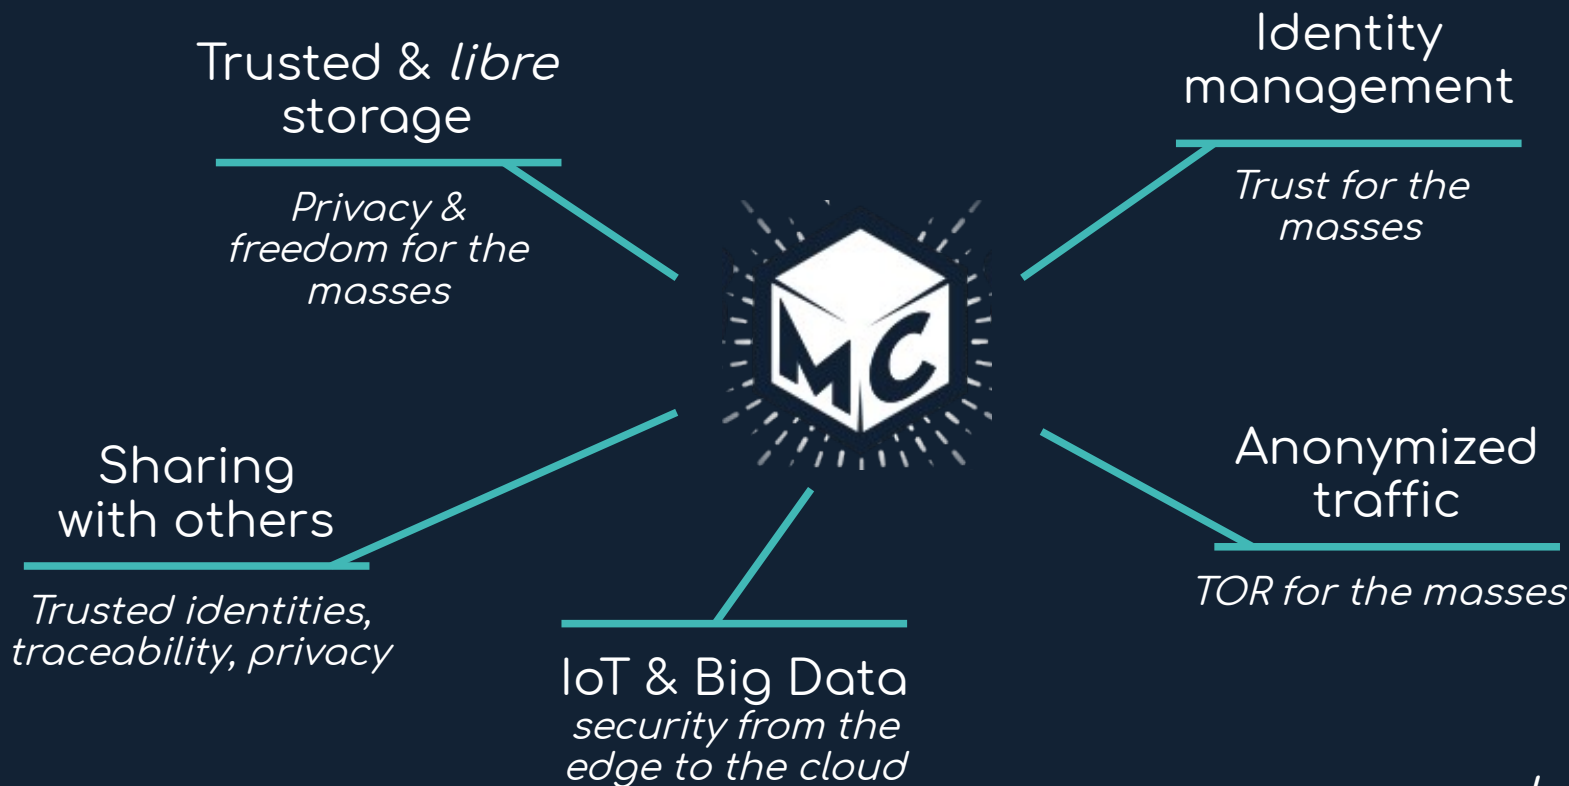

Sensitive data **but** WHERE to store them?
but WHO can *really* see them?
but HOW are they shared/versioned...

The dragon to defeat!

Sensitive data **but** WHERE to store them?
but WHO can *really* see them?
but HOW are they shared/versioned...

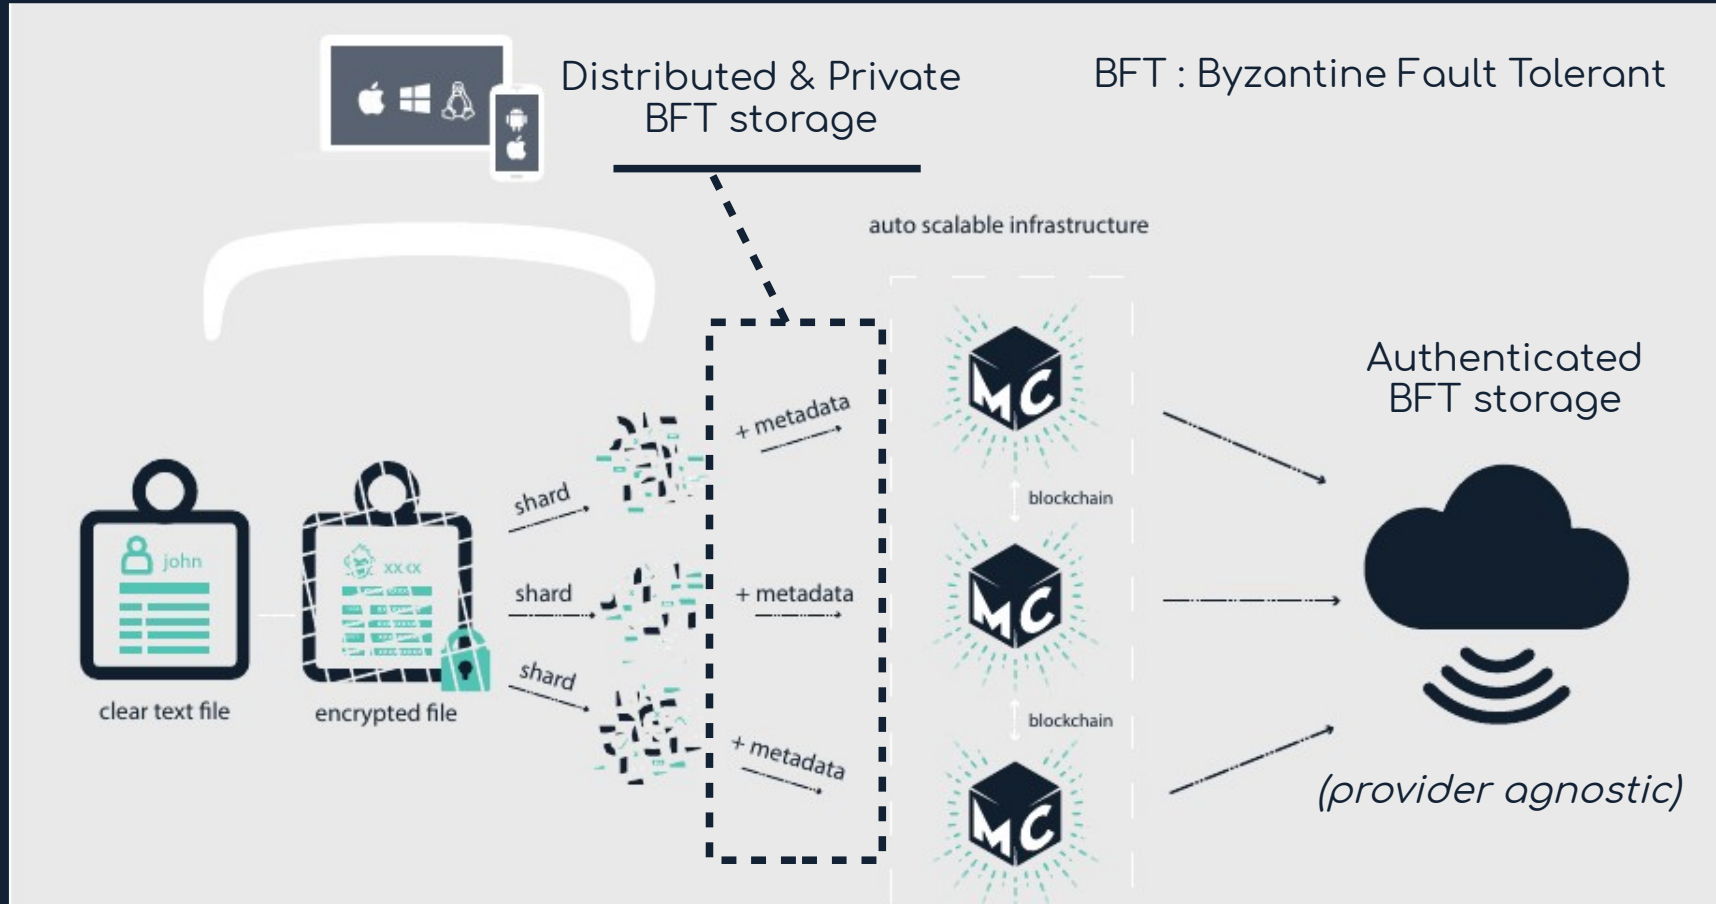

Many storage/cloud solutions exist, but do they propose
freedom, privacy, security with ease?

The project

... and more soon

Trusted Storage & Sharing

A company... to *support* them all

Monkey Codex is a team of **open-source** and **privacy** enthusiasts, that aim to bring elite/expert **security services** to the **masses**.

Actions

- supporting the project
- providing services (i.e. `privacy4all`)
